2A. STUDENT SUCCESS – INFORMATION

It is recommended that the Special Trustee receive for information the following report on actions designed to increase student success and progress at the Compton Center.

First Year Experience

Based on the success of the First Year Experience (FYE) Program at El Camino College, the Center started a FYE program in fall 2009. Modeled after El Camino, faculty and counselors created learning communities to assist students accomplish three objectives:

- develop essential academic skills,
- ease the transition and adjustment of new students to the college environment, and
- provide a comprehensive orientation to campus resources and facilities.

Research shows that students who take part in a learning community program graduate at faster rates than students who don’t participate. The FYE program helps students develop study skills and provides options for studying in groups. FYE students also have access to vital campus resources, and may explore a major, create a career plan, interact in a multicultural environment, and learn how to access electronic information such as e-mail, the Internet and library databases.

We began the program with two cohorts in 2009 and 80% of the students completed the program. Since then, we have established four cohorts. Their learning communities combine English, history, communication studies and human development courses. Initial results are positive as the FYE retention rate is 85.5% compared to 75% for the general population. For the same period, the FYE success rate of 64.3% compares favorably to the 60.8% success rate of the general population.

The faculty and staff participating in the program put in a lot of effort to ensure its success. During their program review, they identified several weaknesses that are being addressed. This includes providing additional tutoring and lab hours for students in English 1A and 1C, and History 102 and improving the screening criteria to properly place the students.

Alpha Gamma Sigma

Under the leadership of Mr. Robert Butler, Dr. Michele Priest and Mr. Dustin Black, a chapter of the Alpha Gamma Sigma (AGS) Honor and Scholarship Society was established in fall 2010. AGS helps students further develop their leadership skills. In addition to supporting the academic endeavors of its members through study groups, tutorials and scholarship opportunities, the honor society offers ways to gain leadership positions, participate in community service, and meet other students with similar academic interests.
Originally founded in 1926 by Dr. William T. Boyce, head administrator of Fullerton Junior College, Alpha Gamma Sigma is an academic honor society and service organization of the California Community College system. Its purpose is to foster, promote and recognize outstanding scholarship, and to encourage and provide opportunities for participation in community service activities.

Students must maintain a GPA of 3.0 or better to be members of AGS and most chapters set a minimum number of hours of community service that members must perform. At its annual convention, AGS awards thousands of dollars in scholarships to members who excel in academics and in service. At this time more than 60 students are participating in AGS.

**Honors Transfer Program**

A new Honors Transfer Program (HTP) will be established at El Camino College Compton Center in fall 2012. The program will be specifically designed to better prepare the highly motivated student to transfer successfully to a university and complete a bachelor's degree.

The HTP provides a unique learning environment which stresses scholastic excellence and develops the academic awareness necessary to achieve this goal. The major objective of the program is to prepare students for transfer by focusing on enhanced reading, writing, and study skills.

Honors courses are chosen to fulfill the requirements of the associate degree as well as to transfer to the University of California, California State University, and most other universities. Generally, students in the HTP complete the same number of courses as other students planning to transfer.

Honors courses are academically enriched to intellectually stimulate students, encourage independent, critical thinking and promote close interaction between students and faculty.

The HTP will have specific admission and completion requirements including a minimum cumulative GPA and a set number of honors courses that must be completed per semester. Students accepted to the program will be asked to sign a contract to complete honors-level work in preparation for transfer to a four-year college or university. An advisory committee will establish the exact process during the early part of the spring semester to ensure students in the local high schools are aware of this opportunity.
