Title 5 §§55060, et seq., 55521  
Health and Safety Code §128050

Nursing students who have already earned a baccalaureate or higher degree from a regionally accredited institution of higher learning are not required to complete any general education requirements that may be required for an associate degree. Instead, these students only need to complete the coursework necessary for licensing as a registered nurse. Prerequisite science courses must comply with the nursing program recency clause of not exceeding seven years. Required science courses that are older than seven years must be re-taken.

The District shall utilize criteria published on the nursing program's website and in the current college catalog in addition to the following when screening nursing students:

- Academic degrees or diplomas, or relevant certificates, held by the applicant;
- Grade point average in relevant coursework;
- Life experiences or special circumstances of an applicant;
- Any relevant work or volunteer experience; and
- Proficiency or advanced level coursework in languages other than English.
- Achievement of a successful passing score on the ATI TEAS examination.

Nursing students are subject to all policies, regulations, and guidelines outlined in the Associate Degree Nursing (AND) Student Handbook published by the Compton College Nursing Program.
