Title 5, section 59400, 59402, 59404  
Education Code 78900 et. Seq.

The responsibility for the selection of textbooks rests with the faculty teaching the subject.

For the purpose of this policy, the term textbook includes required or recommended learning materials, including books, laboratory manuals, workbooks, student supplements, or other printed, multi-media, electronic material, or open source material.

The official course outline of record sets forth the goals and objectives of each individual course of study. All texts and other materials utilized in the learning process shall be compatible with and evaluated in light of the course outline of record.

Textbooks should reflect professional standards in content and design as well as reasonable cost to students. In accordance with Board Policy 1600: Full Inclusion of People with Disabilities, instructors are encouraged to select and utilize instructional materials that are available in alternate format or whose copyright permission is easily obtainable.

If electronic instructional materials are available to a student through a license or access fee, those materials must have continuing value to the student after the class ends. Continuing value can be obtained if the student has electronic access to the materials for at least two years after the end of the class; if the materials are printable; or if the materials can be saved by the student. Students shall not be required to pay for electronic materials used to administer the course, such as a course management system.

In order to minimize cost to students, the usual period of adoption for texts will be two academic years.

Special consideration for earlier change may be given under extenuating circumstances.

Procedures for implementing the policy will be developed in collegial consultation with the Academic Senate, as stated in Board Policy 2510.
