The truth of it is, there are not enough taxes. After I transferred out of community college, the price doubled. If that's not enough money that they are making, there's nothing else that needs to be passed. They should be making enough money. Prices went from \$20 to \$46 I pay for my own college. The price is so expensive .

Well, currently we pay more property tax than any other city around us. We pay way more property tax than they do. More than the surrounding cities around us. We don't need any more taxes in the city of Compton. A lot of bills are higher in the city of Compton. Just by the utility bills alone. That does include the taxes of the property. A great deal of money is being squandered. The access to financial pathway is entitlement. Compton doesn't have that. You have to show the adequate pass way of where the money is located and the money was wasted or not used because they didn't have the basic keys of accountability. The pathway to write a check. They were not qualified. So much money was divided and they forgot responsibility.

I am not gaining anything out of it and my privatized taxes are already sky high. I am opposed to bond measures to send other kids to college. Everyone wants help without helping themselves.

We already have a lot of taxes so we cannot survive on only one check. I work but my wife does not work and I have four children. It is very hard to have more and more taxes.

The property is too high in Compton. Fix the streets in Compton. Fix the potholes.

I think the education needs to be addressed. I don't care if it looks nice or not. I think the education is more important instead of looks.

My taxes and things are as high as they can be right now. We did have a break on the proposition but now they're trying to remove that. They gave seniors a break, but now they're trying to remove that.
